

South East Water Tour

9 September 2015
brought to you as part
of the VicWater Annual Conference

Time	Activity
10.00am	Bus departs The Langham Hotel , 1 Southgate Ave, Southbank
11.15am	Mount Martha Treatment Plant , 372A Craigie Road, Mt Martha <i>Overview</i> - over the last 4 years has been significantly upgraded with technology including Class A recycle plant, solar dryers and high temperature Anaerobic digeters, as well as a number of other typical treatment technologies that enables an old lagoon plant to accommodate rapid population growth.
12.15pm	Bus departs Lunch bag on the bus
1.00pm	Peninsula ECO , Shop: 2449 Point Nepean Road, Rye <i>Overview</i> - the largest pressure sewer system in Australian history, providing sewerage connections to more than 16,000 properties between Rye and Portsea to remove failing septic tanks which uses world first OneBox Technology (South East Water developed control and monitoring system for Pressure Sewer Systems).
2.30pm	Bus departs
4.00pm	DELWP Emergency Control Centre , Cnr Nicholson St & Victoria Pde <i>Overview</i> - the State Control Centre is Victoria's primary control centre for the management of emergencies including those that significantly impact water supplies, waste water and dam safety. This session provides a tour of the facility, where we will also cover the evolution of Emergency management in the water sector and better understand how Government and industry can use this centre in response to any major water or dam safety emergency in Victoria.
5.00pm	Bus departs
5.15pm	Estimated arrival at The Langham Hotel

Important information: South East Water will provide you with high vis vests and hard hats but delegates will need to wear long sleeves, pants and enclosed shoes.
